
JobDesigner installation guide

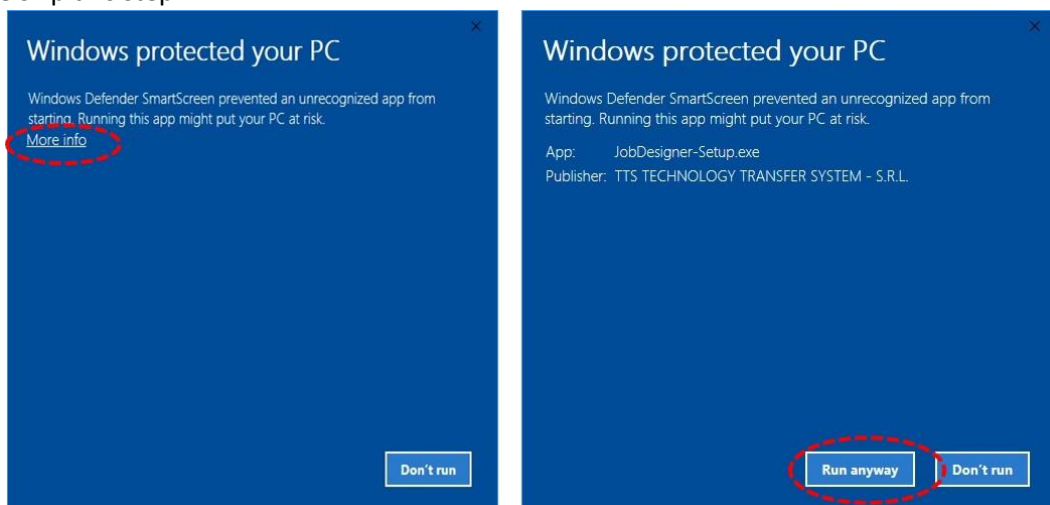

Open the link <http://www.ttsnetwork.net/jobdesigner/download/> with a browser.
Click on “Download JobDesigner 2.0”.

The screenshot shows the JobDesigner website. At the top, there is a navigation bar with the logo for Technology Transfer System and links for COMPANY, SOLUTIONS, PRODUCTS, and CONTACTS. The main heading is "JobDesigner" with the subtext "Download latest version". Below this, there is a paragraph of text describing the software's purpose and a yellow warning box stating "You need to have a valid activation code in order to execute the program." A red dashed oval highlights the "Download JobDesigner 2.0" button. Below the button, there is text about supported operating systems and a link to "Learn more about java system requirements". At the bottom, there is a link to switch to the Italian version of the page and a copyright notice for 2018.

The file “JobDesigner-Setup.exe” will be downloaded.

Launch the file “**JobDesigner-Setup.exe**” to install it.

If a pop-up window, as in figure below, is showed, click on “More info” and then “Run anyway” to install it.
Otherwise skip this step.

A new pop-up window will be shown, click on “Yes”.

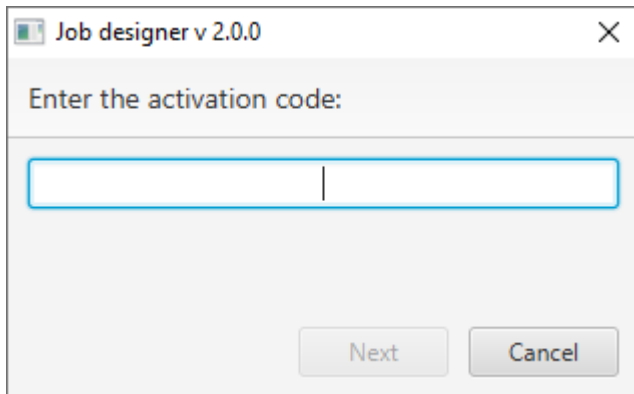

Select the destination folder, click on “next” and then “Install”.

At the end of installation, click on “Close”.

JobDesigner license activation

Launch JobDesigner from the Windows menu.

Enter a valid activation code and then press “Next”.

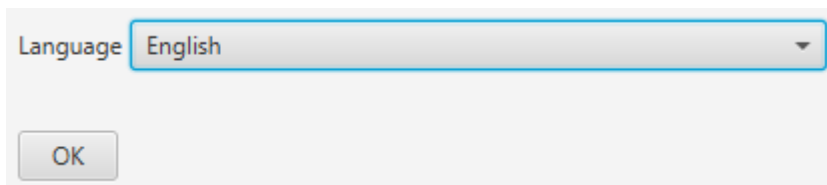

The screenshot shows a dialog box titled "Job designer v 2.0.0" with a close button (X) in the top right corner. Below the title bar, the text "Enter the activation code:" is displayed. A text input field is positioned below the text, containing a vertical cursor. At the bottom of the dialog, there are two buttons: "Next" and "Cancel".

In case of error, please contact your system administrator.

JobDesigner configuration

Select the Job Designer Language from the drop down list.

The screenshot shows a configuration dialog box. It features a label "Language" followed by a dropdown menu currently displaying "English" with a downward-pointing arrow on the right. Below the dropdown menu is an "OK" button.

Click on OK to save the selection.

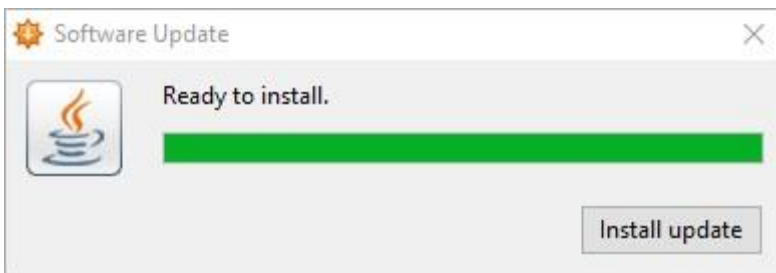

JobDesigner update

Launch JobDesigner from the Windows menu.

If the following window is displayed, select **“Install update”**.

The update will be automatically downloaded, then click on **“Install update”**

The JobDesigner will be updated. At the end, re-launch JobDesigner.

If the following window is displayed, select **YES** to download the correct configuration for the Job Designer.
